**Want to make the most of a home energy audit (How\$mart or otherwise)? Try asking:**

- Which of my ducts, if any, are leaking? Can you show me where they are?
- Where are the biggest air leaks in my home/biggest opportunities for air sealing?
- What would you prioritize if this were your home, and you wanted to make it more efficient on my budget?
- Is there a question you think I should have asked, but didn't?
