

SUPPORT TRUTH IN SCHOOLS

Most Kentuckians want students to learn the truth. Representative Attica Scott sponsored bills to make sure schools teach accurate Kentucky and U.S. history.

HB 88 would make sure middle and high school students learn African- American and Native American history.

HB 67 would make sure high school students learn about the history of racism, including:

- Trans-Atlantic trade of enslaved people
- American Civil War
- Jim Crow laws and segregation
- Civil Rights Act of 1964
- Voting Rights Act of 1965

An honest education is crucial for students of every race. House Bills 88 and 67 support teachers, kids, and parents who want schools to share the facts about our history.

This knowledge equips us to solve problems today and in the future.

KFTC members and friends showed up at the Capitol in support of Representative Attica Scott on the day she was sworn into office.

kystudentvoiceteam.org

The Kentucky Student Voice Team surveyed more than 10,000 middle and high school students. 90% of students of color said their race/ethnicity was important to them. But 1/3 said stories of people who look like them are rarely or never included in their history lessons.
